## ACOUSTICALLY TRANSPARENT SCREEN SURFACE

### ABOUT SOUNDSCREEN™

SoundScreen™ is an award winning acoustically transparent projection screen surface designed for home theater and large screen applications. This screen material is a durable, vinyl coated woven fabric that hangs flat, curl free and eliminates the need for tab-tensioning.

SoundScreen fabrics can be utilized in all \*Vutec™ and Vision-X™ front viewing projection screens. This acoustically transparent surface offers advanced state of the art audio transmission while maintaining excellent video performance.

This specialized fabric is woven to pass sound equal to a speaker grille cloth while providing optimum projection image performance. Viewing surface available in three finishes; MatteWhite GreyDove and Black (used for lining).
